ABOUT HSQ GROUP

HSQ Group, Inc. was founded by Jay Huebner, Nour Shehadeh and Antonio Quevedo. Our vision was to form a multi-faceted consulting firm capable of providing quality products and services to developers and governmental agencies in South Florida and throughout the state.

THEIR VISION Is now a reality

Whether it's in the public or private sector, HSQ group is committed to providing the highest level of quality and professionalism to every project.

QUITE A LOT

Our diversity is our strength

- Civil engineering design and permitting
- Construction administration and inspection
- CRA project design for municipalities
- Roadway design
- Coordination between client, architect, attorney, contractor, engineer, surveyor, utility companies and government staff
- Land use plan and re-zoning amendments
- Site planning commercial and residential parcels
- Master planning of large tracts
- Site due diligence studies for planning and engineering
- Design of water distribution and sewage collection systems, paving and drainage
- LEED AP for Green Building Projects
