GET YOUR PERMIT EXTENSION HERE! HB7207 ALLOWS FOR ANOTHER 2 YEAR EXT.

DRI development order approvals can now be extended for 4 years. Environmental resource permits (ERP) and local permits can be extended for another 2 years provided the permit was extended under SB360 but was not able to extend under last year's SB1752 because of expiration date or the permit expires between 2012 and 2014. The new law does cap the total permit extension to a total of 4 years from 2009. A developer must apply for the extension within 90 days of the expiration of the permit. HSQ can do this for you.

In observance of the holiday season, HSQ GROUP INC. will be closed Monday December 26th, 2011 and Monday January 2nd, 2012. We would like to wish you and your families a very happy healthy holiday season.

WE THANK ALL OF OUR CLIENTS WHO HAVE CONTINUED TO USE HSQ GROUP FOR THEIR PROJECTS CONTRIBUTING TO ANOTHER SUCCESSFUL YEAR.
